

Reinhard Doleschal, Dr.-phil,

Full-time Professor of Innovation and Management at the Department of Electrical Engineering and Computer Science at the Ostwestfalen-Lippe University of Applied Sciences.

He studied Industrial Relations, Psychology and Business Administration at the University of Hanover and the University of Paderborn, where he received his doctoral degree on Foreign Investments in the Automotive Industry in Brazil (supported by DAAD). He has long term research experience on Work Organisation, Business Administration and Teamwork at the Institute of Work and Technology (IAT) in Gelsenkirchen. During this period he was manager for a technology project in the Automotive Industry in China. From 1994 to 2002 he worked as a managing director for a consulting company in Lower Saxony. From 2002 to 2012 he was the head of the Institute of Management Skills (KOM) at Ostwestfalen-Lippe University of Applied Sciences. From 2008 to 2012 he was also the head of the Business School OWL. Currently he is Professor at the Department for Electrical Engineering and Computer science, and he is responsible for innovation methods and strategies, and for management system and training for students in collaboration with other applied technical science departments, continuous education and for postgraduate management training on company level. 2007 he became a visiting professor at the Indian Institute of Science in Bangalore/Dep. of Management Studies (India) for knowledge and innovation management (supported by DAAD). He is Co-author of a 'Handbook of Teambuilding' and author of more than 100 books, articles and papers on redesign of Work Organisation, Management, Business Process Reengineering, Innovation, and Global Business Leadership.
