

Praktikum

Lichtplanung/Lighting Design

Sommersemester 24 und Wintersemester 24/25

We are

a design-oriented lighting planning office and plan innovative light and lighting solutions in the fields of architecture, technology and art. Our office is located in the middle of Dresden Neustadt, the open and colorful district of Dresden.

With us

You get the opportunity to apply and deepen your knowledge in real planning practice. For example, you research project-relevant information, develop presentations, create drawings and visualizations, build models, accompany light tests or support us in the realization and documentation of our projects.

You practice

in the office of a renowned lighting designer who has worked on many wellknown projects for over 20 years. You will gain a valuable background of experience in a very attractive and futureoriented planning area. You work on innovative and attractive projects. At the end of your internship you will receive a certificate from us and, if your performance is excellent, there is the possibility of continued employment for a longer period of time.

You have

Do you enjoy finding individual solutions? Are you no stranger to reliability and independent work? Do you have experience with CAD programs, Adobe and the flexibility to learn new applications? Are you interested in international trends and developments in light and architecture?

You have a positive attitude and you are motivated to learn ?

Then we look forward to receiving your application by email to:

Ruairí O'Brien . Lichtdesign
