But what will ARTERIJA come to be? Yes, ARTERIJA may be created by you!

## INTERNATIONAL CREATIVE WORKSHOP

Virtual international creative workshop ARTERIJA aims to establish a concept of ARTERIJA art space. So, sign up and do participate! Fascinating presentations on the European Capital of Culture – the city of Kaunas, commemorative souvenirs, prizes, and most importantly – international exchange of ideas are awaiting you.

## RULES

Groups of 3 to 6 students from higher education institutions of arts are eligible to participate. Participants (1 member on behalf of the group) shall express their willingness to participate to this e-mail address: [arterija@vda.lt](mailto:arterija@vda.lt) until 10/09/2021. Necessary information regarding the signing-up process will be forwarded to you.

The aim of the creative workshop is to establish a concept of space which:

- would host the artworks (regardless of style or form) or be an artwork itself;
- could be changed (transformed) in 4 times throughout 2022 (i.e., would host new artworks or would be partially (but not substantially) changed as an artwork itself);
- could stay open throughout the day and night unprotected;
- would not succumb to atmospheric conditions (rain, snow, wind, etc.);
- would become a prominent artistic attraction for the area.

Creative workshop (except the work in Groups which is unregulated) will take place virtually. Organisers and mentors will provide organisational and informational support during the workshop.

Every Group will create 1 concept of ARTERIJA art space. The participants are not restricted as regards the way in which the works shall be performed. Works must be submitted virtually, in graphic/visual form (drawings, layouts, collages, video material, etc.)

Complete information regarding the location will be provided via e-mail after expressing a willingness to participate.
